

# Anderson County

## Economic Impact of Forestry and Forest-Products Industries

Forestry and forest-products industries make an important contribution to the economy of Anderson county, South Carolina. The purchase of goods and services by this industry and its employees creates economic activity in other sectors of the economy (Khanal et al. 2018).

### Highlights

- Total forest land 207,905 acres, 46% forested
- Forestry and forest-products industries generate 5.07% of the total economic output. Every million dollars of output in forestry sector creates \$209,082 output in other sectors.
- Forestry and forest-products industries provide 2.22% of the total jobs in the county. Every 10 direct-hire in forestry creates 10 additional jobs in the county.
- Forestry and forest-products industries provide 2.76% of the total labor income in the county.
- Forestry and forest-products industries provide 4.12% of the total value-added in the county.

Table 1: Direct economic impacts from forestry and forest-related sectors on employment and income in Anderson County, 2019.

Forestry sectors	# of Jobs	% of County	Labor Income (\$)	% of County
Direct impact from forestry and forest-products industries				
Forestry and logging	35	0.04%	\$1,267,022	0.03%
Solid wood products	127	0.15%	\$5,424,738	0.14%
Pulp and paper	741	0.88%	\$59,274,989	1.57%
Wood furniture	45	0.05%	\$1,580,556	0.04%
<b>Subtotal</b>	<b>948</b>	<b>1.13%</b>	<b>\$67,547,305</b>	<b>1.79%</b>

It is estimated that forestry and the forest-products industry have a total economic impact of \$694 million in total industry output, \$268 million in value-added, \$104 million in wages and salaries, and 1864 jobs. Forestry and forest products industries generate 5.07% of the total economic activity in the county. In addition, forestry-related activities contributed an estimated \$42.52 million in tax revenue for federal, state, and local governments. This total includes tax revenue of \$29.12 million for federal and \$13.40 million for state and local governments.

Table 2: Total economic impact from forestry and forest-related sectors on employment and income in Anderson County, 2019.

Total	Impact	% of County	Total Economic Impact
Total economic impact of forestry and forest-products industries			Total = Direct + indirect + induced economic impacts (IMPLAN 2017).
Jobs	1864	2.22%	
Labor income	\$104 million	2.76%	
Value-added	\$268 million	4.12%	
<b>Total Output</b>	<b>\$694 million</b>	<b>5.07%</b>	

### Glossary:

- The direct impacts are the actual expenditures and employment of the forestry and forest-products industries (forestry and logging, solid wood products, pulp and paper, and wood furniture).
- The indirect impacts are the goods and services purchased by their supporting industries (supply-chain effects).
- The induced impacts are the purchases of goods and services by employee households associated with direct and indirect impacts (employee spending effect).
